

SELF ANALYSIS

To prepare for traditional and culture fit interview questions

In this activity you will do some self analyzing to help prepare you for traditional and culture fit questions.

Putting in the time now means you don't have to think of these answers on the spot during your interview. Thinking about the following attributes and questions will also help you in the upcoming lessons.

Keep track of the answers wherever you are keeping your interview material. That way you can use them as quick reference before your interview. Also it will be fun to see how your answers change over time.

- List 5-7 of your strengths
 - List 3-5 of your weaknesses
 - What do you like about software engineering? The building? The breaking? The problem solving? The end product?
 - How do you keep up with current trends and advances in the field? Blogs? Websites?
 - Where would you like to be in 5 years? 10 years? Tech Lead, PM, Start up Founder?
 - What is your ideal job? Small or Big Team, Front End, Back End, Mobile, Database
 - What is your ideal company? Large, Small, Software is #1 Focus, Non profit, Finance
 - Why do you want to work for this company? Can you tie it in with your 5/10 year plan?
- Your ideal job/company? - You can use the job you picked during the research activity.
- Remember you should do this with each position you interview for.
